

VVA Website

BY QUENTIN BUTCHER

VVA recently updated our national website, vva.org. Taking advantage of improved technology, our goal is to create an online experience that will be engaging, resourceful, and easy to navigate—and to exhibit the great work of VVA nationally and locally.

The website utilizes a responsive design that will work well on PCs, tablets, and mobile devices. Navigation has been simplified to allow members, visitors, supporters, and veterans needing help to gain easy access to VVA's resources. A zip-code search feature has been incorporated for locating VVA chapters and VVA service officers more easily. Joining VVA and renewing memberships will now be possible through the website for the first time.

We hope you will visit the website and find it useful. There are more enhancements to come as we improve our presence on the web. ■

RELAUNCHED
